MAGMAHON

Macmahon is keen for indigenous Australians to join the freeway team and experience the exciting career opportunities our industry has to offer.

This challenging contract involves construction of new roads, traffic interchanges, bridges, a rail tunnel and relocation of the train line between Joondalup and Currabine stations.

The work includes environmental management and landscaping, whilst working closely with local residents, schools and community groups.

Macmahon is seeking highly motivated people to join its dynamic team on this project which is expected to be completed by mid 2008.

Macmahon is offering traineeships which will give you the opportunity for on-the-job training in skills such as small plant and equipment operation, traffic control, fencing, pipelaying and earthworks.

Macmahon strives for industry best practice in the area of health and safety.

As part of the freeway team, you will be expected to commit to your own safety and to the wellbeing of others around you, using the latest techniques, processes and systems.

Successful applicants will be eligible to receive a Certificate II in Civil Construction which is recognised by all major employers around Australia.

How to Apply

If you have what it takes to be part of the Macmahon Mitchell Freeway team, please contact the Recruitment Team West for more information.

As well as working with a great group of people, on a great project, you will also enjoy excellent conditions and the security of employment with one of Australia's leading public companies.

To apply, fill out an application form and forward it to the address provided on the back of this brochure. Please provide your Job Seeker Number and the name and telephone number of your case manager, if applicable.

You can also email to careers@macmahon.com.au with *Indigenous Traineeship on Mitchell Freeway* in the subject line.
