

Western Power's Stuart Morgan Scholarship

- Do you have the power to succeed?
- Are you a year 12 student at a country high school in Western Australia?
- Interested in further study at a university in Perth in 2007?

Western Power's Stuart Morgan Scholarship will help you succeed. It will support you to gain a degree qualification at a university in Perth and offers paid summer vacation work at Western Power – a great way to make valuable work contacts in industry.

The scholarship is open to students completing year 12 studies at a Western Australian country high school (or as a boarder at a metropolitan high school). To be eligible, you must be intending to undertake a degree course in the field of information technology, commerce or electrical engineering.

The scholarship is currently valued at \$8,708 per annum, paid for the duration of the degree course. It is not just your school results that count, we'd like to hear about what you do in your spare time and any extra curricular activities you may be involved in.

Apply now for all the support you need to start a successful career. Please submit your covering letter and resume with a copy of your school results for year 11 and 12.

For further information please contact: Tanya Prince, Employee Development Consultant, telephone 9326 4156.
