

Learning Futures Network

Building solid learning relationships across communities

Curtin partners with progressive schools, industry, cultural and community organisations to build deep learning relationships with a futures focus.

Over the past few years there has been a growing interest by K-12 schools to have a more meaningful and engaged relationship with Curtin University, and it is with that in mind that we announce the creation of the **Learning Futures Network**.

BENEFITS FOR STUDENTS

Curtin engages talented young people through the Achievement Centred Engagement for Students program (ACES), which includes workshops, seminars and academies that build skills and strengths in innovation, creativity and entrepreneurship.

Students in the ACES program can also build records of achievement that assist in meeting Curtin's entry requirements, and gain opportunities for accelerated entry into Curtin.

BENEFITS FOR SCHOOLS

The benefits for member schools include:

- **Early notices and special invitations** to programs and activities for staff and students
- Recognition of your students' participation in Achievement Centred Experiences for Students **ACES Events** enabling them to compete for scholarships
- Involvement in **Challenge-Based Learning** opportunities
- Access to Learning Futures staff for **Keynotes and Presentations** at school events;
- **Invitation to selected events** hosted by Curtin's school partners in the Innovative School Consortium
- **Access to endorsed learning experiences** that collect evidence of learning from students that can be applied to scholarship applications under the **Scholarships for High Achievement and Performance Engagement (SHAPE)** program
- **Co-develop engaging workshops** for your staff and students to create new products and to deepen school partnerships
- **Increased opportunities for** collaboration with other schools, industry partners, community and cultural partners.

HOW TO BECOME A LEARNING FUTURES NETWORK MEMBER SCHOOL

Curtin invites interested schools to become members of the Learning Futures Network by visiting the Information Sheet at <http://tiny.cc/learningfuturesnetwork> and completing the lined Application Form. There is no cost for membership. Fees for programs and events vary according to the organizing presenter.
