

Rabo Client Council Teacher Farm Experience Program

Discover how STEM is transforming agriculture

Food, Science, Technology and Sustainability in Action

Dates: September 19th & 20th 2023

Location: Moora region (departing from Perth)

Cost: Free*

Target audience: Career practitioners and secondary teachers of Humanities and Social Sciences (HASS), Science and Technologies

Australian farms are being transformed by technology. The Teacher Farm Experience Program aims to increase the knowledge and confidence of STEM, HASS and agriculture educators to allow them to incorporate food and fibre production into their teaching programs.

This opportunity, including all meals and accommodation, is provided free of charge*.

Participants will gain knowledge and skills in:

- precision agriculture
- crop production
- sustainable water use
- new and emerging technologies
- food and fibre
- agribusiness
- food security
- life on a farm

How to apply?

*This is a scholarship opportunity made available by Rabobank to 30 teachers from WA only, with clear links to Australian Professional Standards for Teachers (AITSL).

Rabobank will fund the program from Tuesday 19th September until Wednesday 20th September. Flights or travel to and from Perth are to be arranged by participants or their schools.
