

EDMed[®]

Professional Development
for Teachers

Ronald
McDonald
Learning
Program

Do you know how many students at your school have a chronic illness?

You might be surprised to learn that 15% of the student population are living with a chronic illness. We can help teachers better support their needs!

EDMed® is Australia's leading accredited professional development supporting teachers working with students with a chronic illness.

Delivered to over 24 000 professionals across Australia EDMed empowers teachers with strategies to improve the educational outcomes of students with chronic health conditions such as diabetes, epilepsy, Crohn's disease, cystic fibrosis, and cancer.

EDMed online and face-to-face is available FREE to teachers.

To learn at your own pace or to book a presentation at your school or university go to www.rmhc.org.au/edmed
