

AISWA Online Learning - COMING SOON

INFORMATION FOR AISWA MEMBERS

What is AISWA Online?

AISWA Online is a Learning Management System (LMS), or platform for digital learning. We will use this platform to create and share eLearning courses and online content with our schools and members of our community.

What are the benefits of AISWA Online?

AISWA Online will provide members with access to high quality Professional Learning (PL) in an online format. Members will be able to access content and work at their own pace, and at a time and place that suits them; thereby providing a flexible and convenient approach to learning.

What is an eLearning course?

An eLearning course is a program of learning delivered in an online context. Courses will provide members with opportunities to engage with content, acquire new information, or further understandings of known concepts and skills. Courses may also include resource material for teachers and school leaders to support school-based PL programs.

Who can use AISWA Online?

While teachers and school leaders will be significant stakeholders, AISWA Online is also for school governors, business managers and other school staff.

How will AISWA Online support and engage teachers?

Where appropriate, eLearning courses will align with the [Australian Professional Standards for Teachers](#) and provide additional opportunities for users to accumulate the minimum 100 hours of annual PL required for full teacher registration.

What's next?

In the near future, AISWA will send out information about our new online courses. You will register for AISWA Online Learning events in the same way you register for AISWA face-to-face PL (via the [PL & Event Calendar](#)).

What to know more?

If you have any questions, please get in touch at onlinelearning@ais.wa.edu.au.
