

Conservation Volunteers Australia **Earth Assist**

School Holiday Program – October 2019

For students wishing to complete community service hours and help conserve our natural environment.

What is Earth Assist?

Earth Assist is a **FREE** program for school students aged 15 – 18 years, where you can step into the environment and contribute to real conservation projects. Participants will learn conservation skills, gain a greater understanding of our environment, and help ensure a sustainable future.

What's involved in the School Holiday Program?

You will meet the Team Leader at a central pick-up point in Northbridge at **8:45AM**. You will then travel by bus to a conservation site in Perth where you will participate in hands on conservation-based activities such as land maintenance or helping out at wildlife rehabilitation centres. The day concludes by **3:00PM** when you are returned to the Northbridge pick-up location. **Come along, make some new friends and enjoy the positive experience of conserving our environment!**

Please note that participants must have turned 15 years old by the project day to participate in the program. Participants need to bring their own food for the day, wear long trousers, long sleeves, enclosed shoes, and a hat. Conservation Volunteers provides water, sunscreen, educational resources, tools & equipment, and activity-appropriate safety & personal protective equipment.

When & where can I sign up?

Fill in the registration form and contact us to book the dates you are interested in. We are running activities on the following days in October:

Tuesday 1st, Thursday 3rd, Friday 4th & Monday 7th- Thursday 10th

Bookings are essential as we have limited space available so get in quick!
