“Apart from the usual great calibre of speakers, Positive Schools 2019 is unmissable because of a great collaboration with Australia’s peak anti-bullying NGO the National Centre Against Bullying. Aside from keeping up with the latest developments in the mobile phones in school debate, this conference also provides contemporary best practice on how to provide students with as safe as possible an environment in which to learn.”

Dr Michael Carr-Gregg

## CONTEXTUAL WELLBEING

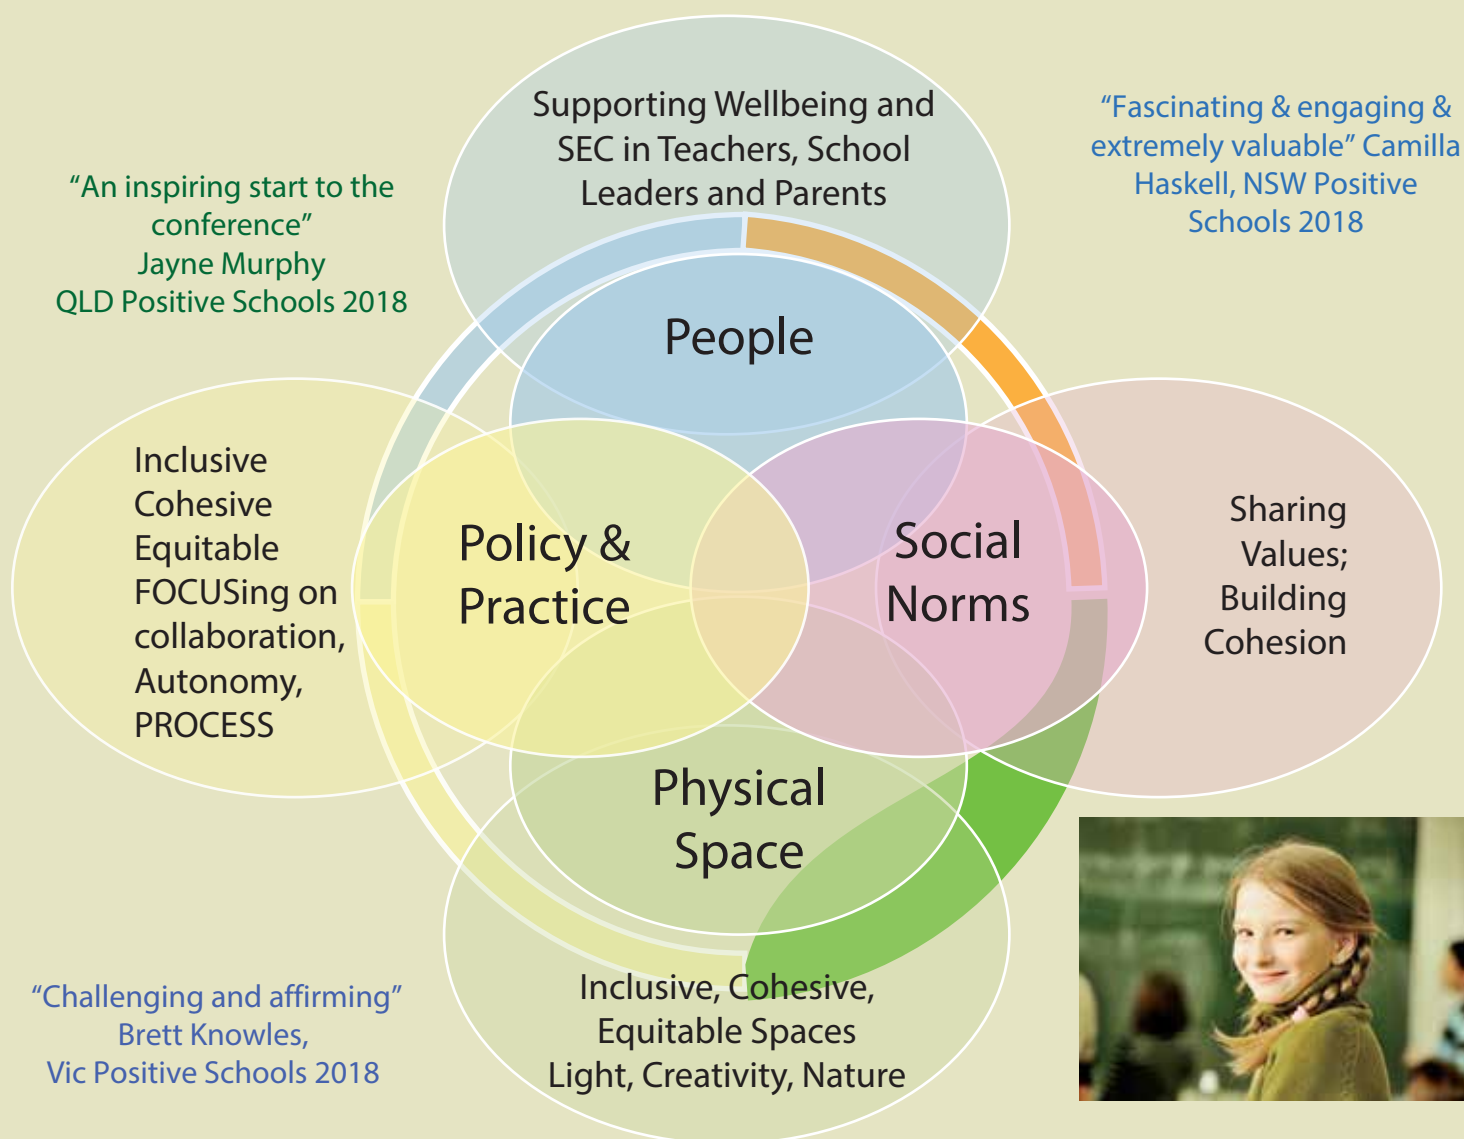

### Creating Positive Schools from the Inside Out

"Can't express just how great this was"  
Corrie Baxter,  
WA Positive Schools 2018

Another opportunity to participate in an in-depth exploration of Contextual Wellbeing with Dr Helen Street.

This workshop aims to help every student experience Contextual Wellbeing as a member of a thriving, equitable and healthy school context.

It has often been said that it takes a whole village to raise a child, I believe it takes the whole, healthy school context to help a child to flourish.  
Contextual wellbeing matters because every child matters.
