VOICES FOR CALM

Positive Schools 2020 will address the biggest social and psychological concern facing schools today, that of anxiety. In so doing, we will examine 'the flip side of anxiety and stress' and ask how we can better support calm, confidence and courage within our school and classroom communities.

Get on board and participate in our Voices for Calm project (details on the conference website). Meet colleagues and leading experts from around the world, choose workshops that work for you, be inspired through powerful stories and take home up-to-date sustainable and realistic information

**CREATIVE KIDS.
BRIGHTER KIDS.**

Australia's Premier Wellbeing and Mental Health Event is specifically for all Primary and Secondary Teachers, School Leaders, School Psychologists & Nurses and Allied Education Professionals. Over a pre-conference workshop day and two full main conference days, leading experts from around the world will engage us, challenge us and inspire us to create exceptional education and build exceptional schools.

Support CALM, COURAGEOUS and CONFIDENT school communities where everyone knows that everyone matters.

Positive Schools offer you an unbridled opportunity to better manage anxiety, create healthier context and culture, build resiliency in yourselves and in others, grow in calmness, courage and confidence, develop awareness and mindfulness, build compassion and better support motivation

40 presenters, 3000 delegates, four venues, one vision...
Positive Schools... so much more than a conference.

Putting Values into Action

Pre- Conference Workshop for Educators

This **all-new** workshop will explore the nature of successful, sustainable, meaningful change and development with a firm focus on the creation of Contextual Wellbeing* in your classroom and school communities. It is not enough to 'teach' people about values and value led behaviours. It is not enough to understand how to be kind, the benefits of compassion or what it means to be honest. Rather we need to help young people to embrace the core values of their classroom and school communities, as simply 'the way things are'; as normal, expected ways of thinking, feeling and behaving.

Helen will combine her systems framework for wellbeing with Appreciative Inquiry methods. In so doing, she will guide delegates to deepen and build on the best elements of their school, and embrace change with enthusiasm, commitment and inclusivity.

**Contextual Wellbeing - 'A state of belonging and positive engagement in life that arises from membership of a healthy social context'*

Helen Street,

with Dr Helen Street

"It is a great thing to have a vision, it is a far greater thing to make a vision into a reality".
