

Peace of mind

Using our services guarantees compliance with SCSA upload requirements. It also relieves your staff of the stress of multiple attempts to get the correct data uploaded.

No more angst and phone calls waiting on an answer while other important duties are put to one side.

Stay current

SCSA requirements may change. Your school can be certain that your data upload is current and meets all the necessary deadlines as your students enrol or leave your school.

Results files will need to be uploaded for Primary school students in the near future. Make sure your school is ready and compliant when this data is required.

Our staff have worked at SCSA in the past and were the people schools rang to solve their data upload problems.

NEURONET

Do you need help with the upload of data for your school to SCSA?

We can help ease the stress for clerical staff and Deputy Principals in meeting SCSA deadlines to upload all your file requirements

Training and personal assistance available.

© Neuronet 2018

Option 1

Source your school's uploads to us. We will come to your school twice a term and upload your data to the School Curriculum and Standards Authority.

- No need to find extra staff
- No extra duties for current staff
- Guaranteed to meet SCSA deadlines and standards
- We will come to you twice per term to upload your files to SCSA
- \$300 per term

Option 2

Train your staff to do the uploads from their desks by enrolling in our professional development tutorials.

- Best cost/return solution
- \$200 per person (\$150 each with a second person from your school)
- Two hours of practical training at your school
- 1 hour free followup visit per school

Choose an option to suit your school and its needs. Results guaranteed! We won't be finished until your files are uploaded and correct. Phone now on 0488880216 or email rick@browner.net to discuss your options.

Option 3

Introductory offer for your school to try our services. We will come out to you and provide the following services:

- Supply of the file templates for entering data
- Personal tuition for the upload process
- Training for file uploads
- \$500 for a half day session
