

# Better Education Conference

2 & 3 June 2016 | Swan Valley, WA

## Redesigning the way we teach

Great schools ensure that all students are optimally challenged to achieve their personal best. This involves shifting the focus from success for a few to success for all; from measuring attainment to measuring progress; from a culture of testing to a culture of learning.

“Proving is good. Improving is better.” (James Nottingham)

### FEATURING GUESTS
