

INFORMATION NIGHT FOR SCHOOL LEADERS

UNLEASHING CREATIVE POTENTIAL:

CULTIVATING THE
INNOVATION-NATION

FORM.

building a state of creativity

WHAT IS THE ART OF LEARNING PROGRAM?

The only certainty about the future is uncertainty. The most important skill for the future has become creative thinking: the ability to develop original solutions, to cope with unpredictability, to respond positively to change and to display flexibility of mind. We need a nation of innovators. Want to find out more and how your school could be involved?

OCTOBER 18, 2018
3PM-5PM

The Goods Shed,
Claremont

This event is free of charge for school leaders but registration is a must.

To register or for more info. Please contact:

CREATIVITY AND LEARNING: WHAT'S THE CONNECTION?

PAUL COLLARD, Chief Executive
Creativity, Culture & Education (CCE), the International
Foundation for Creativity

- How is the world of work changing and what are the essential skills to thrive in this new environment?
- What is the role of education to equip young people with the necessary employability and enterprise skills?
- How can creative learning help students develop core employability and enterprise skills?

CASE STUDY:

THE ART OF LEARNING PROGRAM IN WESTERN AUSTRALIA

What happens when teachers and creative industry practitioners partner in the classroom?

IMPACT EVALUATION:

Short-term impact of the Art of Learning on student academic learning outcomes in five schools in WA.

MATHILDA JOUBERT, Education Consultant

Q&A AND REFRESHMENTS

How can schools in Western Australia become part of the Art of Learning program?
