

THE DIGITAL PRIVACY, SAFETY & SECURITY IMPLEMENTATION JOURNEY

Implementing the BrightBytes Digital Privacy, Safety & Security module is easy and the BrightBytes team is here to support you along the way. Use this roadmap to guide your implementation, from the initial kick-off, to systemic integration into your district's practices.

INITIAL PLANNING MEETING Join an introductory meeting to review the implementation process, define the timeline, and identify your core team. FIRST ENGAGEMENT ACTIVITY Come together as a team to complete the questionnaire, then set norms and expectations for next steps. Develop a regular meeting schedule for future check-ins. **DATA REVIEW** Meet with your Educational Research Partner to walk through your district dashboard and discuss focus areas. **MONITOR & ADJUST** Meet routinely (recommended 1x per month) to review progress, update the dashboard, and determine next action steps. Identify and connect with necessary stakeholders to accomplish goals between team check-ins.
