

Teacher with a passion – 2017 start

SMYL Community College is based in Rockingham and serves the wider district. SMYL CC is an independent, Curriculum and Re-engagement in Education (CARE) School catering for students in year 9 – 12 students who have disengaged from mainstream education.

SMYL Community College is looking for a highly motivated teacher with a passion for teaching and learning, to commence in early 2017. Both primary and secondary trained teachers will be considered.

This is a professionally challenging and rewarding position. The students at SMYL Community College typically have a poor record of participation and/or achievement in their preceding year(s) at school. We are successful in changing this by establishing strong, positive relationships with each student and running a creative, personalised and purposeful learning programme.

You will work with a dedicated team of professionals and be responsible for delivering an education and personal development program based on each student's Personal Learning Plan and the West Australian Curriculum and Assessment Outline in years 9, 10 and the WACE in years 11 and 12. SMYL CC uses Big Picture Education design to deliver the curriculum and in this context your professional interests and passion will include a highly developed understanding of student-centred learning.

Applicants should address the following selection criteria and show that you have:

- a) the professional skills and motivation to contribute to each child's physical, intellectual, personal, emotional and social development;
- b) aptitude/experience in working with at-risk young people;
- c) the ability to combine education, training (VET) and other endorsed programmes;
- d) the ability to work in a small, multi-disciplinary team;
- e) a current TRBWA registration; and,
- f) a current Working with Children Check.

You will be very highly regarded if you also have:

- additional areas of personal interests or professional experience relevant to the educational and personal development of our students eg. Cert IV TAE, training/experience in Big Picture education, experience in using IT to enrich classroom learning, experience/training in STEM and/or HPE;
- a current driver's licence (LR/MR [bus] licence an advantage);
- first aid, surf life savers or similar certificates.

Further information can be obtained from, and applications should be addressed in writing to:
